

TRAP-SHOOTING AT DEEP RUN CLUB

Gun Committee Issues Notice of Prizes for the Coming Season.

SEASON PRIZE A SILVER CUP

Luncheon Will Be Served on the Club Lawn on the Last Saturday of Each Month.

The Deep Run Hunt Club, through its gun committee, Messrs. W. P. Wood, J. W. Young and Dr. B. L. Hillman, has issued the following notice for trap shooting for the season of 1906:

Shoots: Preliminary shoot, Saturday, April 28th. Regular shoots every Saturday from May to September, inclusively, commencing at 4:30 o'clock.

There will be a shooting on regular "free day."

Prizes: Monthly handicap, prize of \$10 in gold and subscription, to be shot for the last Saturday in each month. Season handicap prize of \$25 silver cup, donated by the club for the best general average.

Season's high average, first prize, \$15; second prize, \$10, donated by the club for the shooters whose percentage in the regular shoots are the highest for the season.

Only members of the Hunt Club can compete for prizes.

Prize Competitions Handicap.

Monthly \$10 gold prize. Handicaps will be allowed, the score made in previous shoots being taken as a basis. No member shall be entitled to a handicap unless he has shot once previously during the month.

A winner of this prize will not be entitled to further handicap, but will "shoot from scratch" for balance of the season, in this event only.

Silver cup: Competitors must shoot eight or more times during the season to be eligible. Shooters who miss more than five consecutive shoots will be dropped from this competition.

Handicaps will be corrected weekly according to the following scale:

90 per cent. receives 0; 85 per cent. receives 1; 80 per cent. receives 2; 75 per cent. receives 3; 70 per cent. receives 4; 65 per cent. receives 5; 60 per cent. receives 6; 55 per cent. receives 7; 50 per cent. receives 8; 45 per cent. receives 9; 40 per cent. receives 10; 35 per cent. receives 11; 30 per cent. receives 12; 25 per cent. receives 13; 20 per cent. receives 14; 15 per cent. receives 15; 10 per cent. receives 16; 5 per cent. receives 17; 0 per cent. receives 18; 50 per cent. receives 19; 60 per cent. receives 20.

The greatest handicap allowed will be 20 targets. The highest possible score will be 30.

Illustration: We will say that Mr. "A" commences as a 50 per cent. shooter. He will receive nothing in the way of added targets. He breaks 42 targets out of his 50. This will score him 42. At the next contest he is classed as an 84 per cent. shooter. This will entitle him to three added targets. At this contest he breaks 45, which, with his 3 added targets, will score him 48. His breaking 45 places him back in the 90 per cent. class. Mr. "B" commences as a 25 per cent. shooter. He receives 15 added targets. He breaks 25 out of his 50. This, with his 15 added targets, will score him 50 straight. At the next contest he is classed as a 50 per cent. shooter, which will entitle him to 10 added targets. At this contest he breaks 30, which places him back in the 50 per cent. class again, entitling him to 10 added targets, and so on.

The first handicap of each shooter will be based on the score made in the preliminary shoot of April 28th. Should he fail to shoot on that day he will have to start from scratch.

Season's high average: First prize, \$15; second prize, \$10. No handicaps to be allowed.

Shooters to be eligible for high average must shoot nine or more times during the season.

Preliminary shoot does not count.

Special day: The last Saturday in each month being prize day, the club will furnish a lunch on the shooting lawn.

LOCAL BOAT CLUB IS GROWING ACTIVE

Crews Are Practicing Daily. Much Good Material is On Hand.

For the past two weeks the Richmond Boat Club has been actively engaged in practicing its crews. Among the new members for this season are many good oarsmen; and the old men are showing up in better shape than ever. On account of the late spring the club has been set back just about a month, but now they are more than making up for lost time.

Next week Mr. W. F. Gordon's new speed launch will arrive. It is capable of making 12 miles an hour, and is built on the lines of a motor boat.

Among the boats in the club's possession are two eight, two four, and two one-oared shells. They also have six sliding and five stationary seat pleasure boats, besides many others of numerous classes. All the oars and paddles, and other paraphernalia about the club house has been painted with the club colors, red and white.

The locker room, library and verandas have been arranged for the best comfort of the members. The organization is in a very flourishing condition, and there are many names for membership on the waiting list. The club intends to hold monthly regattas throughout the season.

PROSPECTS BRIGHTER FOR WISCONSIN CREW

Weeding Out Process to Begin Soon—Football Situation Very Dark.

(Special to The Times-Dispatch.)

MADISON, April 28.—The University of Wisconsin crew prospects are brighter than they have been for years.

So far forty varsity candidates have been kept at work to get in shape, and they are in good condition. The weeding out process will begin soon, but the material is such that it is thought that the men that are given actual work in preparation for the intercollegiate regatta at Poughkeepsie will be among the best that Wisconsin has had in many years.

Lea, Captain Burge, Levisse, Johnson and Davis have been on previous crews. Most of the candidates for the varsity have made their numerals as freshmen, and five or six have won their emblems as members of the crew of the university.

It is figured that \$3,000 is needed to take the men to the eastern regatta, to put things in shape and to pay all running expenses until the time of the regatta. Only a small part of that is on hand at the present time, making it necessary to raise pretty close to the entire amount. It is figured that a considerable sum can be raised among the students, but the alumni and the business men of the State and immediate neighborhood will be called upon for the bulk. Upon the success of this effort to get funds depends the question of whether there is any representation in athletics by any department this spring.

Until recently there was a hope that the track team would be able to continue work, but that is doubtful. If there was a coach to take charge of the men and keep them up to their work it might be possible to go ahead. But it would be another case of begging for money, and it is improbable that there would be much success in that line at the same time that the crew people are looking for money. So it looks now as though this branch would also go by the boards.

The football situation is dark. The faculty men all interpret the action of the faculty to mean that Michigan and Minnesota simply have to agree to call off their dogs with Wisconsin for games, and there will be no football. It looks as though it would be a long time before any director of athletics is named to take care of things at Wisconsin, and by that time there will be little chance to get good football games on the Wisconsin schedule.

Upon the success of this effort to get funds depends the question of whether there is any representation in athletics by any department this spring.

Until recently there was a hope that the track team would be able to continue work, but that is doubtful. If there was a coach to take charge of the men and keep them up to their work it might be possible to go ahead. But it would be another case of begging for money, and it is improbable that there would be much success in that line at the same time that the crew people are looking for money. So it looks now as though this branch would also go by the boards.

The football situation is dark. The faculty men all interpret the action of the faculty to mean that Michigan and Minnesota simply have to agree to call off their dogs with Wisconsin for games, and there will be no football. It looks as though it would be a long time before any director of athletics is named to take care of things at Wisconsin, and by that time there will be little chance to get good football games on the Wisconsin schedule.

PROSPECTS BRIGHTER FOR WISCONSIN CREW

Weeding Out Process to Begin Soon—Football Situation Very Dark.

(Special to The Times-Dispatch.)

MADISON, April 28.—The University of Wisconsin crew prospects are brighter than they have been for years.

So far forty varsity candidates have been kept at work to get in shape, and they are in good condition. The weeding out process will begin soon, but the material is such that it is thought that the men that are given actual work in preparation for the intercollegiate regatta at Poughkeepsie will be among the best that Wisconsin has had in many years.

Lea, Captain Burge, Levisse, Johnson and Davis have been on previous crews. Most of the candidates for the varsity have made their numerals as freshmen, and five or six have won their emblems as members of the crew of the university.

It is figured that \$3,000 is needed to take the men to the eastern regatta, to put things in shape and to pay all running expenses until the time of the regatta. Only a small part of that is on hand at the present time, making it necessary to raise pretty close to the entire amount. It is figured that a considerable sum can be raised among the students, but the alumni and the business men of the State and immediate neighborhood will be called upon for the bulk. Upon the success of this effort to get funds depends the question of whether there is any representation in athletics by any department this spring.
